SHIPMOI.CA

We are a shipping agency with the ability to determine your delivery needs and identify the type of transport best suited for your profile. We work with trusted partners recognized worldwide for their professionalism.

With over 25 years of experience in the shipping industry, we firmly believe that we can make your job easy by offering the best delivery times and prices. Our strength lies in that we generally contract with a single supplier, allowing us to focus on getting the best price possible.

The process is quick and occurs entirely online. Get a rate by simply entering the weight and dimensions of your shipment, as well as the postal code of the points of origin and destination.

Shipmoi.ca is a trademark of Courrier SLR Inc., an express courier company founded in 1994, in Laval, Québec.

SHOPIFY – THIRD-PARTY CARRIER
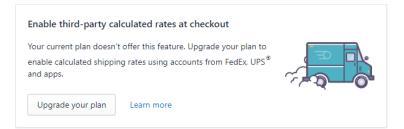

Activate the function at Shopify

Upgrading to an "Advanced Shopify" plan is not required to activate this feature and the feature is free for annual subscriptions.

PROCEDURE

Activate Third-party carrier-calculated shipping rates

Settings Shopify
- Settings
- Shipping and delivery
- Accounts and integrations : Manage integrations
- Carriers accounts

- Select « Learn more » et « Shopify Support» to request the addition of this feature

`Object :` Activate third-party rates calculated at checkout
Your message : Hello, would it be possible to activate the functionality to activate third-party rates at checkout.

SHOPIFY'S ANSWER

Here's the answer Shopify should provide: **Third-party carrier calculated shipping rates** are a feature that can be enabled.

To activate this feature, there are 3 options:
- **Option 1**: Activate the feature for an additional $ 20 per month to our other standard plans (Lite, Basic Shopify, Shopify).
- **Option 2**: This feature is included if you're on the Advanced Shopify plan of $ 299.
- **Option 3**: We can access it for **free** if you have an **annual subscription**.

ADJUST INTEGRATION IN YOUR STORE

D In the application settings choose your label creation method.
- Manually: The label is created, manually.
- When paying for the order: The label is automatically created when payment is entered.
- When processing the order: The label is created automatically when you process the order.
